*Dear Members of ISNCT,*

*I'm very glad to inform you that the site of the 13th International Conference of our Society has been definitely chosen. We, the organizing Committee, have devoted much time and many efforts to make it sure that the venue for the next biennial meeting would be a highly attractive and comfortable city.*

*As Pavia is unsuited due to a lack of accommodation facilities, we have thoroughly examined several offers as Como, Trieste and other places. Eventually we selected one of the most beautiful and interesting cities in Italy, Florence. This choice is a tribute to its great history, the role played in the past and present in all fields of art and also its central position in Italy and Europe, efficiently linked by road, air and rail to all major hubs in Europe and all over the World, in order to make it easier to attend the meeting for you anyone interested in BNCT.*

*Therefore I am pleased to send you my warmest invitation to join us in Florence from 3 to 7 November 2008, for a congress with a high scientific and human content.*

*Sincerely, with best regards*

***Aris Zonta, M.D., Ph.D.***

***President of ISNCT & ICNCT-13***
